

# FIDELITY ADT BUSINESS SOLUTIONS

*Managing your risk through the integration of traditional security and cutting-edge technology.*

*Along with our customised electronic security solutions, we offer offsite monitoring solutions in our state-of-the-art monitoring centres backed up with 24/7 armed response and industry leading expertise to mitigate risk.*

Our customers benefit from our National Footprint, years of experience in the security industry, and customer focussed service delivery options.

### CCTV MONITORING

Our range of CCTV solutions include everything from analogue to thermal and infrared cameras, along with three generator-powered monitoring centres that ensure your security is uninterrupted.

### FIRE DETECTION AND SUPPRESSION

We offer customised fire detection and suppression systems to serve a variety of applications across any industry, along with managing employee safety and protecting your property, data and assets.

### ALARM AND INTRUDER DETECTION

Our retail and commercial customers benefit from the most comprehensive security solutions with a range of detection devices that include indoor and outdoor systems, standalone units and SMS notifications.

### SENSORMATIC EAS

As the exclusive product partner in sub-Saharan Africa for Tyco's Sensormatic product range, we offer our customers the latest in Electronic Article Surveillance (EAS) technology.

### PHYSICAL BARRIER SECURITY

We offer world-class perimeter/fencing products that can be fully integrated with our alarm and intruder detection systems to act as a visible proactive barrier.

### SHRINK MANAGEMENT AS A SERVICE

Shrink Management as a Service (SMaaS) is a cloud-based Loss Prevention offering designed to help enhance productivity, increase reliability and boost performance.

### ACCESS AND EGRESS CONTROL

With an extensive range of online, offline and standalone control systems, we can track and monitor employee and customer movement to prevent loss of assets or harm to employees and customers.

### BUILDING MANAGEMENT SOLUTIONS

We have extensive experience in building management technology and we are a leading provider of innovative and customised solutions to make your architecture smarter, safer and more connected.

## GLOBAL STRENGTH. LOCAL EXPERTISE. AT YOUR SERVICE.
