TRELLIDOR LOCKDOWN SHUTTER

SECURITY DESIGNED TO SUIT YOUR LIFESTYLE

The Trellidor Lifestyle range of multi-purpose products has been designed to fit into the way you prefer to live your life. Attractive and unobtrusive, they provide excellent protection plus other functions such as blocking out insects, assisting with internal climate control and providing privacy.

Trellidor Security Shutter sleek aluminium louvres are lockable and have in-built strengthening features. They are popular window treatments and can also be custom-made for doors, patios, and room dividers.

Trellidor Clear Guard lockable mesh screens can be fitted to any opening. They provide clear views and create a protective environment with elegance and style. Use them to keep out insects, monkeys, and other problems.

Trellidor Rollerstyle aluminium roller shutters can be automated for the ultimate in convenience. They can be installed to protect windows, doors and safe zones and roll up into a neat box to open the space completely.

The Lockdown Shutter is designed to create a barrier you can trust to do its job. It's a first for South Africa, with an innovative friction locking system that makes the shutter virtually impossible to lift once rolled down into position. This shutter provides extraordinary security for safe zones and other high security risk locations.

TRELLIDOR COTTAGE GUARD

TRELLIDOR POLYCARBONATE BAR

TRELLIDOR RETRACTABLE SECURITY

TRUSTED PROTECTION FOR OVER 45 YEARS

Trellidor has provided the best security barriers for the strongest home protection for over four decades. We manufacture products for doors and windows that are dependable, and backed by reliable warranties and after-sales service. Choose from a wide range of different product designs.

Trellidor Retractable sliding gates are made for doors and windows. They are framed on all four sides for added strength and fitted with strong, patented locks. Select a model to suit your budget and security risk.

Trellidor Cottage Guard burglar bars have few rivals in terms of strength. Fully framed aluminium tubes reinforced with threaded steel rods through their centre, they can be fitted to any window and made to match cottage pane windows.

Trellidor Polycarbonate Bar has transparent panels fixed into an extruded aluminium frame for a neat finish and improved strength. They are custom-made for each window and professionally installed for a great fit.
